Pineberry
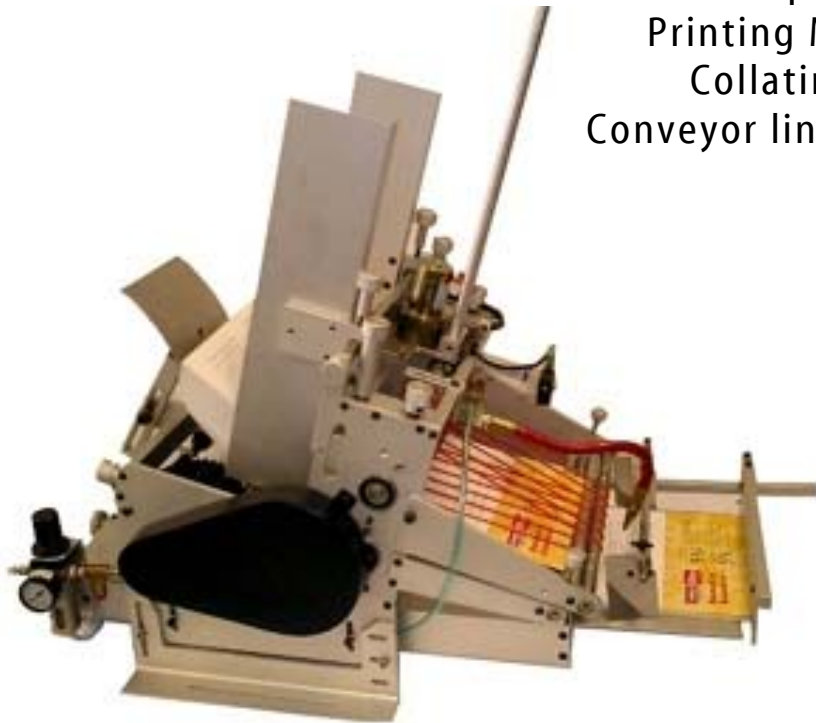

MANUFACTURING

Features:

- ❖ All anodized aluminum framework
- ❖ All stainless-steel shafting
- ❖ Patent pending gear-driven singulating mechanism
- ❖ Servo amplifier/brushless DC drive
- ❖ All permanently lubricated ball bearing journals
- ❖ FDA-design features are standard
- ❖ Simple and dependable automation for product counting and accumulating
- ❖ Simple adjustments minimize setup and changeover time
- ❖ Rugged durability for continuous use and long life
- ❖ Heavy duty mounting stand
- ❖ Selectable stroke length of retracting arms for increased productivity
- ❖ Fault control
- ❖ PLC controlled for integration into other machinery
- ❖ Easy to learn and operate – simple push-button controls

Material Sizes

1.25" X 1.25" up to 8.5" X 11"

Material Thicknesses

.003" up to .31"

Dispensing Speed

0 to 6,500 IPM (variable)

Power Requirements

240/120 VAC 50/60 Hz
0 to 6,500 IPM (variable)

Air Required

Options

- ❖ Ink Jet Printing
- ❖ Hot melt Gluing
- ❖ Barcode Scanning
- ❖ Verification
- ❖ Velocity/target tracking
- ❖ PLC/PC interface
- ❖ Up-size to 11"x19" material
